More Good Work by the Fire Department.

The alarm of fire from box fourteen on Wednesday was caused by a slight blaze at the residence of Mr. T. Porter Smith, on Mt. Airy avenue. It seems that Mrs. Smith was away from home, and Mr. Smith went home to get a clean shirt. He struck a match, and it is supposed a spark set fire to some clothing in a closet. When the fire department arrived there was a brisk blaze burning merrily in one of the rooms. The Champion Chemical Engine, of which our fire laddies are justly proud, made quick work of the fire, and without a drop of water being thrown, save that from the chemical engine. Under ordinary circumstances the entire house would have been flooded with water. As it was the entire loss was less than fifty dollars, and Mr. Smith was so pleased with the work of the company that he had them all as his guests at dinner at the Hotel Windsor yesterday.

Why do farmers stay here and rent land when they can go to Texas and buy land for what it will cost them here for rent.

Big Day in Richmond.

About sixty members of Garth Lodge, A. O. U. W., of this city, and several members of the Imp. Order of Red Men, went over to Richmond Wednesday to participate in the first day exercises of the three day carnival given by the A. O. U. W. Lodge of that city. The affair was a big success. A very large crowd was in attendance, and the Richmond people did everything in their power to make them enjoy themselves. The principal feature of the day was the big parade, and one of the big features of the parade was the show-up made by the Indians of this city, who repeated the chase of the pale face given here on Carnival Day. Every one from Paris who attended came home with a splendid opinion of the hospitality of the Richmond people. A representative of THE NEWS was a guest of Mr. and Mrs. Harry Stott, former Parisians, but now two very popular residents of that charming city, and is deeply grateful for the generous hospitality at the hands.

THERE is no State that offers as many inducements to men who want to invest money as Texas does.

The Asphalt Question.

The publishing of the article in the last issue of THE NEWS in regard to the covering of the streets of Paris with asphalt has caused a wide spread discussion of the matter among the citizens of the town. When it is known that there is a vast amount of asphalt within easy hauling distance, and on the line of the L. & N. railroad, and that its cost is far less than brick streets would be, and would last with slight repairs much longer, it seems as if our city fathers would take up the matter and appoint a committee to investigate. The cost of breaking and putting rock on the streets and the cleaning of the streets every week or so, would be a saving which would in a short time pay for putting down the asphalt.

"Herrmann the Great" Coming.

The name of Herrmann is an illustration one to those who love magic. Too much praise cannot be said of the Herrmanns who have entertained and delighted theoreaters all over the world. Not to have seen Herrmann means that you live where theatres are not to be found, providing the city is large enough to attract a visit from this famous entertainer. Leon Herrmann, the present "Herrmann the Great" was born in Paris, (France), March 13, 1867 and traveled with his father, Carl Herrmann, when but a boy. There can be no doubt but that he inherits the love of magic and that is one reason why he is so proficient in the art. He is the third entertainer of the name of Herrmann, all of one family whose fame has increased with the years and the succession. First Carl, then Alexander and now Leon, all called "Great" have astonished and mystified theoreaters for the past sixty years. Herrmann will appear at the Grand on August 23d.

G. W. GARDNER will pay 7 cents per pound for old hens this week. Also eggs wanted.

You Do, or You Don't Need Gasses

The eye being a rather delicate organ, great care should be exercised in the selection of proper glasses. Many believe that glasses should be restored to only when the sight becomes so defective as not to be able to do without.
